BLOOD PRESSURE

RELIABILITY

DOWNTIME

Welcome to Monarch Recruitment's Government Contract Division.
The Catalist-accredited specialist that provides high quality IT contractors to Government organisations and institutions.

OUR ADVANTAGE AND YOURS

Increasing your choice. Eliminating your problems. These are two key advantages of using Monarch and gaining access to over 300,000 UK based IT contract professionals.

Whatever your challenge: new system, legacy system, technology upgrade, technology migration, testing etc... Monarch can provide the resources. Whether it be a key IT contractor or a highly skilled team. Our objective will be to ensure a successful outcome.

QUALITY

NIGHTMARES

QUALITY

Finding the right individual to introduce into your team is easy with Monarch.

Monarch will understand the requirements, appreciate your ethos and only introduce candidates that are comprehensively checked and referenced. Rest assured, the additional resources provided by Monarch will deliver the quality work you need on time and within budget; and we won't forget the importance of a close cultural fit.

DELIVERY

You can be confident Monarch will supply the skills you need, when you need them.

- Candidates are selected from an up-to-date database that has over 70,000 specialist government IT professionals
- A "state-of-the-art" computer suite assists our knowledgeable consultants in swiftly identifying the exact combination of skills and experience to meet your needs.

Monarch

RECENT CASE STUDIES

CENTRAL GOVERNMENT

In 2004, Monarch was selected by one of the UK's largest software and consultancy vendors to join their framework agreement for the supply of all IT related services. Owing to the client being an approved S-Cat supplier, 80% of all the candidates supplied through this framework were security cleared and placed at Central Government sites throughout the UK. Total contract value £2 million per annum.

NHS

Monarch was recently engaged by one of the UK's largest NHS Trusts to assist them in the supply of services for a 8,500 user XP rollout. Initially recruiting the project management resources, Monarch then went on to supply the whole programme with all technical resource. As a result the project is on target and under budget.

LOCAL AUTHORITY

Due to a real understanding of this council's specific needs and culture, our team has successfully engaged 75% of their specialist contractors from all requirements registered.

UTILITIES

Since 1999, we have placed over 280 IT staff with utilities organisations. And in 2000, we became the Managed Agent for one of the UK's largest utility concerns.
